Dana Al Mounayer

ARTIFICIAL INTELLIGENCE SPECIALIST

+966 53 852 2277 | dana.mounayer@gmail.com | Jeddah, Saudi Arabia

PROFESSIONAL SUMMARY

Senior Artificial Intelligence student at Effat University with a strong foundation in machine learning, deep learning, NLP, and data analytics. Passionate about turning data into intelligent, practical solutions for real-world problems, and committed to continuously learning and applying emerging technologies in the fast-evolving field of AI.

EDUCATION

Bachelor of Science in Artificial Intelligence **2023 – 2027**

Effat University, Jeddah, Saudi Arabia

- **GPA:** 3.87 / 4.0
- **President's List**, 2025–2026
- **Dean's List**, 2023–2024 and 2024–2025

CERTIFICATIONS

IBM AI Engineering Professional Certificate **Oct 2026**

IBM Skills Network · Coursera

- 13-course program covering deep learning (PyTorch, TensorFlow, Keras), transformers (BERT, GPT, LLaMA) and LLM fine-tuning; capstone: a Generative AI app built with RAG and LangChain.

Anthropic Academy — Claude 101 · Claude Code 101 · Claude Code in Action · Introduction to Claude Cowork **Apr 2026**

Google (Coursera) — Foundations: Data, Data, Everywhere **Sep 2025**

TECHNICAL SKILLS

Programming Languages: Python, C++, Java, JavaScript, PHP, SQL

Machine Learning: Scikit-learn, XGBoost, Feature Engineering, Ensemble Methods, Cross-Validation, Model Evaluation & Tuning

Deep Learning: PyTorch, TensorFlow, Keras, Neural Networks, Transfer Learning

Generative AI & LLMs: Hugging Face Transformers, LangChain, RAG, LLM Fine-Tuning, BERT, GPT, LLaMA

Web & Tools: HTML, CSS, Bootstrap, Git, VS Code, Jupyter Notebook, Claude Code

PROJECTS

Badira (بادرة) — Preeclampsia Early-Awareness App **Sep – Nov 2026**

Start Smart University Challenge · Community Jameel Saudi & Start Smart Saudi · Live demo

- Developed a bilingual Arabic/English web app that raises early awareness of preeclampsia among Saudi and Arab women.
- Designed a Risk × Reliability × Time framework that shows screening priority, data completeness, and pregnancy-stage timing as separate readings instead of one opaque score.
- Built and presented a working prototype that produces a structured summary to share with a healthcare provider; received a Certificate of Appreciation.

Early Prediction of Preeclampsia Using Multi-Source Maternal Health Data

Machine Learning Research Project · CS4082

- Built and benchmarked 8 ML models across 3 datasets, using SMOTE, hyperparameter tuning, and ensembling to reach up to 84.7% accuracy and 0.951 AUC.
- Designed adversarial robustness tests (class imbalance, label noise, feature drift) to evaluate generalization under realistic clinical conditions.

Smart Wearable System for Seizure Monitoring and Emergency Response

Software Engineering Project · CS3151

- Designed a mobile app integrated with wearable sensors (EEG, heart rate, motion) for real-time, AI-based seizure detection and alerts.
- Architected a layered, modular system using MVC and Observer patterns, targeting sub-5-second emergency alerts and 99% reliability.

EXPERIENCE

Summer Camp Assistant — Manara Sports Academy (MSA) Summer Camp **Summer 2026**

- Contributed 240 hours helping supervise and run daily sports and recreational activities for children, building communication and teamwork skills; received a Certificate of Appreciation.

LANGUAGES

Arabic — Native · **English** — Full Professional · **French** — Elementary · **German** — Elementary
